NEW

SB Hexapod with plastic feet

- Extremely stable support for the top layer of reinforcement.
- Very high stability owing to multiply overlapping and welded reinforcing brackets.
- Rust protection by push-on plastic caps.
- Non-slip large mat footing.
- According to the DBV Specification "Abstandhalter".
- Also as a special design with 1 or 2 crossbars for mounting heating or cooling systems available.
- Delivery times and prices available upon request..
